WORK & PROJECTS

Students Solution an E-learning platform Project

I made this E - learning platform Website using HTML , CSS ,Java Script and PHP/ MySQL

The main objectives of creating the Students Solution, We will provide all the notes regarding subject.

Weather App

I made this weather forecasting app using Javascript ,HTML and CSS. I use open weather API for data purpose.

In this application, you can check the weather forecast of every city.

STRENGTH

I'm always Motivated and patient. I can work great in a team and as an individual too. Friendly , Adaptable and Fast Learner.

CERTIFICATES

JS Essential Training .

HTML Essential Training.

Programming Foundation - Databases.

CSS Essential Training.

Programming Fundamental using Object Oriented Programming.
